

BIOCEBERS IN REIMS

Cohort 5, 2024 - 2026

we started our journey with
INDUCTION WEEK !

Our journey began with induction week getting to know each other, diving into the program, and setting the stage for an exciting adventure ahead.

We were very shy in the beginning, but got along really well after the 'Speed meeting' and 'Theatre workshop'.

 Our kick-off meeting was a wonderful introduction, where we met our professors, attended insightful presentations, and had the chance to share our culture.

We enjoyed a delicious lunch and got to taste some amazing French cheese!

**We explored Cave Mercier in
Épernay and toured the
Champagne vineyards in
Mutigny, ending the day with a
delightful champagne tasting!**

Everybody looked like movie stars.

Graduation Ceremony 2024 !!

We'll be there in 2026 !!!

GREEN CHEMISTRY SEMINAR 2

Thanks to Bioceb and our Professor, Dr. MC Belhomme, for this seminar. It was an enriching experience that deepened our understanding of green chemistry and its real-world applications.

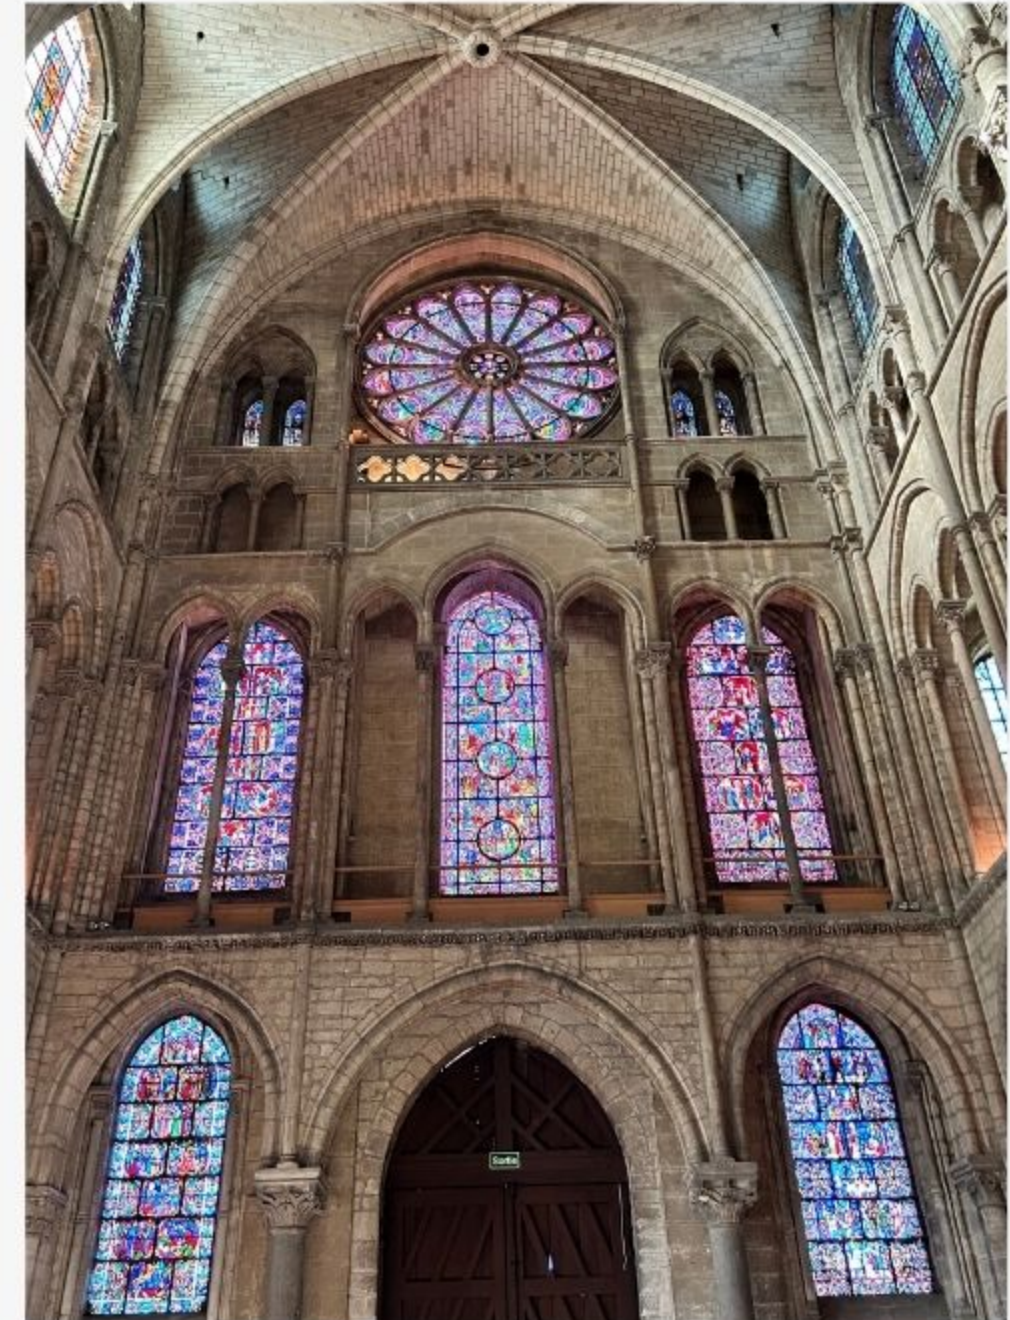

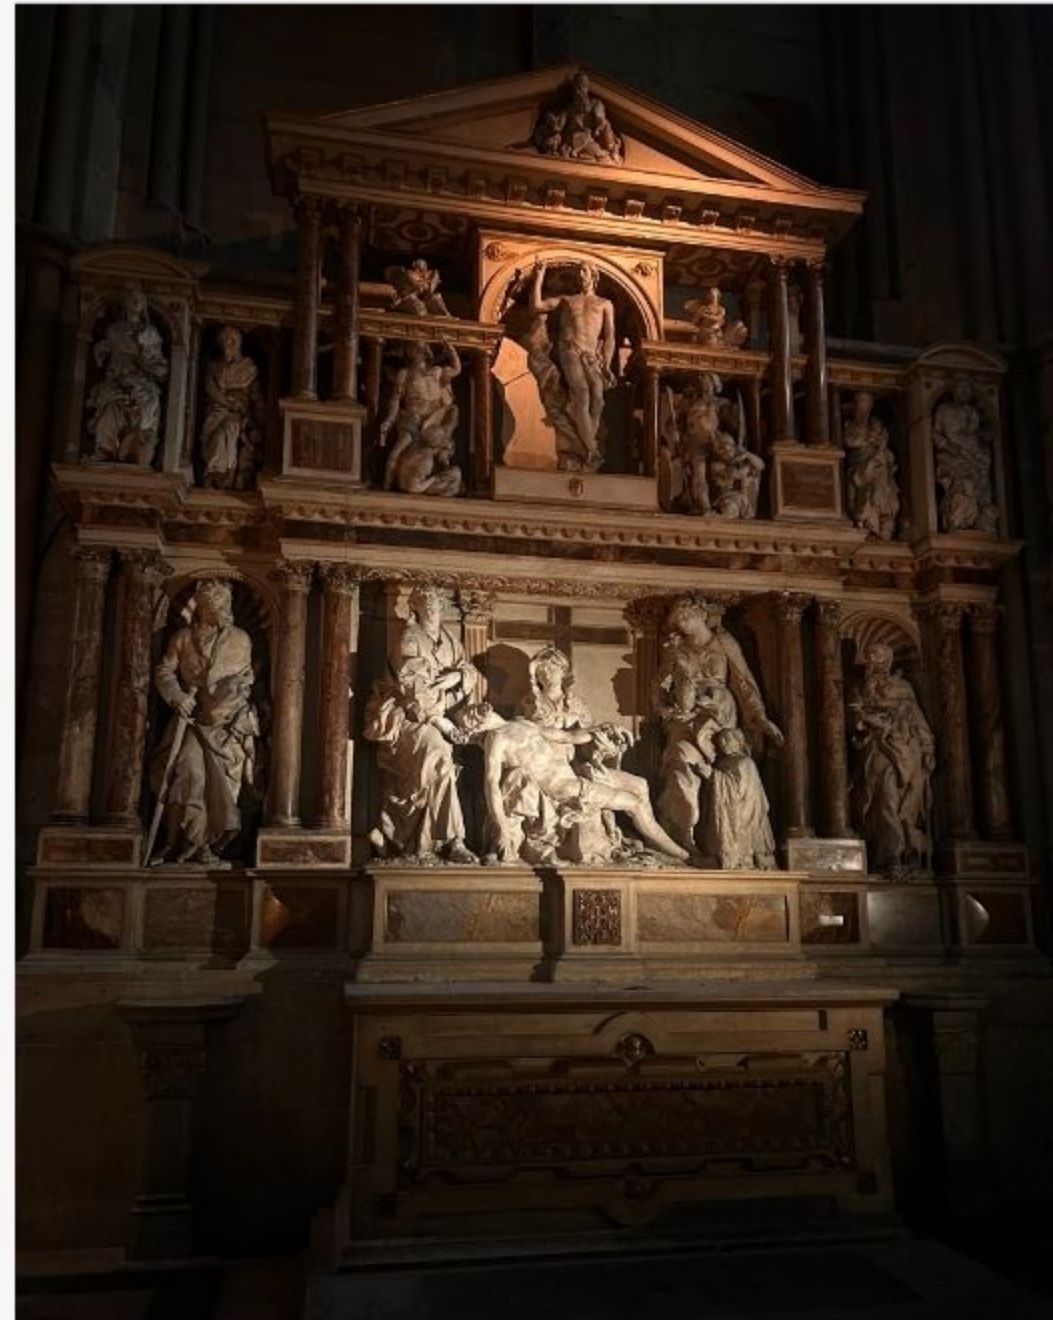

GREEN CHEMISTRY TOPICS

- Clean Synthetic Strategies to Biologically Active Molecules from Lignin: A Green Path to Drug Discovery. - **Pedro, Lucy & Faishal**
- Ligated Pd-Catalyzed Aminations of Ary/Heteroaryl Halides with Aliphatic Amines under Sustainable Aqueous Micellar Conditions. - **Anvarshu & Olga**
- Ball-Milling to Access Dinucleoside Polyphosphates and Analogues. - **Afaq & Bazil**
- Intensified Continuous Flow Process for the Scalable Production of Bio-Based Glycerol Carbonate. - **Anh & Ayesha**

Reims: Where French Kings Were Crowned 👑🇫🇷

✦ A Kaleidoscope of History & Light ✦

**more of Reims'
beauty**

Our favourite spot:
PARC DES CHAMPAGNES

**Studying
at URCA**

We went on Trips

to Amsterdam

to Barcelona

one of the perks of being at Bioceb, you get to try food from all over the world.....

Birthdays

More lovely friends, thank you for joining..

Some cute and funny moments

First semester at URCA has been super enriching moment for us. And now we are going to different places for our future semesters.
