INDUCTION WEEK FOR THE BIOCEB STUDENTS

Dear students,

The Bioceb Consortium has the pleasure to welcome you in the European Master in Biological and Chemical Engineering for a Sustainable Bioeconomy (Bioceb), renowned for its academic excellence and international mobility.

It will provide you a multidisciplinary scientific knowledge base and a shared culture in the field of agro-resources and their conversion through biorefinery processes.

The University of Reims Champagne-Ardenne (URCA) is delighted to welcome all international students for their first semester (S1) during the « **BIOCEB INDUCTION WEEK** » which will be held from **26 August to 30 August 2024**.

You will be given the opportunity to familiarize rapidly with the City of Reims, the Region and the University. You will get a lot of information step by step in real time, a lot of activities will take place and you will also meet international and local students.

All times indicated are French time (UTC+2)

Instructions for Intercultural presentations

26.08.24

Dear students,

As a friendly icebreaker for our session all together Monday 26th August, we're suggesting each student choose 2 objects or photographs:

- 1) A first object or photograph which says something about who you are, your personality, etc.
- 2) A second object or photograph which says something about your home town or country (this could be something you particularly like, or something your town/country is famous for, that you'd like to share).

During the session, you will each have a couple of minutes to introduce yourself to your new colleagues, using your objects or photographs!

Wishing you a pleasant summer and very much looking forward to meeting you all!

Kind regards,

Ghislaine & Judith, Intercultural trainers
